The Missouri Department of Revenue does not have record of receiving your 2019 Missouri Individual Income Tax Return. An estimated billing has been calculated based on information available to the Department, which may include federal information received from the Internal Revenue Service.

The deadline for filing a Missouri Individual Income Tax Return may be extended if an individual is in the military and serving in a combat zone. If this applies, please write "Military Serving in Combat Zone" at the top of this notice and return it to the Department at the above address.

To avoid further action, please check the appropriate line below and return this notice within 15 days from the date of this notice.

I (We) need to file a Missouri Individual Income Tax Return for the year referenced. I am enclosing the following:
 * Missouri Individual Income Tax Return
 * W-2(s) and all supporting documents
 * Payment of amount due along with any interest and failure to file penalty of 25 percent (if applicable).

I (We) have filed the required Missouri Individual Income Tax Return with the Department. I am providing a signed copy of the return for the year indicated with a copy front and back of the cancelled check paying the amount due (if applicable).

I (We) were active duty military with a Missouri home of record. You are still required to file a 2019 Missouri return. You may qualify for non-residency status if neither you nor your spouse spent more than 30 days in Missouri and did not have any Missouri income other than your military pay. If this applies, complete Form MO-1040 and attach copies of all Form W-2's and a completed Form MO-NRI.

I (We) are not required to file a Missouri Individual Income Tax Return for the year referenced. I am providing written reason why I am not required to file on the reverse side of this notice. If the income was for a child and was reported on a parent's federal tax return, please enter the social security number (SSN) of the parent who claimed the income.
